

Quality Teaching and Learning Summer Institute

ADVANCING HIGH-LEVERAGE INSTRUCTIONAL PRACTICES IN OREGON

What is the Summer Institute?

This first-ever summer institute, supported by the OEIB and hosted by OSU, focuses on the development of teacher candidate pedagogical skills that will prepare them to work with students meeting the Common Core State Standards (CCSS) and the Next Generation Science Standards (NGSS). The five-day institute will engage teams in rethinking educator preparation pedagogy approaches to better support models of teacher preparation.

Can't Bring a Team? Attend some Open Events!

Educator preparation programs from across Oregon were invited to submit applications for transformational teams to attend this week-long institute. Not all programs are able to send a team this year, **but some events throughout the week are open to the public.** We encourage your program to send representatives to these events if there is interest.

A complete schedule of events can be found on the next page. Please visit the interactive campus map for OSU-Corvallis at <http://oregonstate.edu/campusmap> to locate the buildings we will be using, Furman and Kearney Halls. Parking on the OSU campus is unrestricted during the summer in the spaces designated for staff and students.

Materials from this year's summer institute will be available online after the event. Please visit our website to learn more about the event and to find materials after the institute.
